Allplan 2016

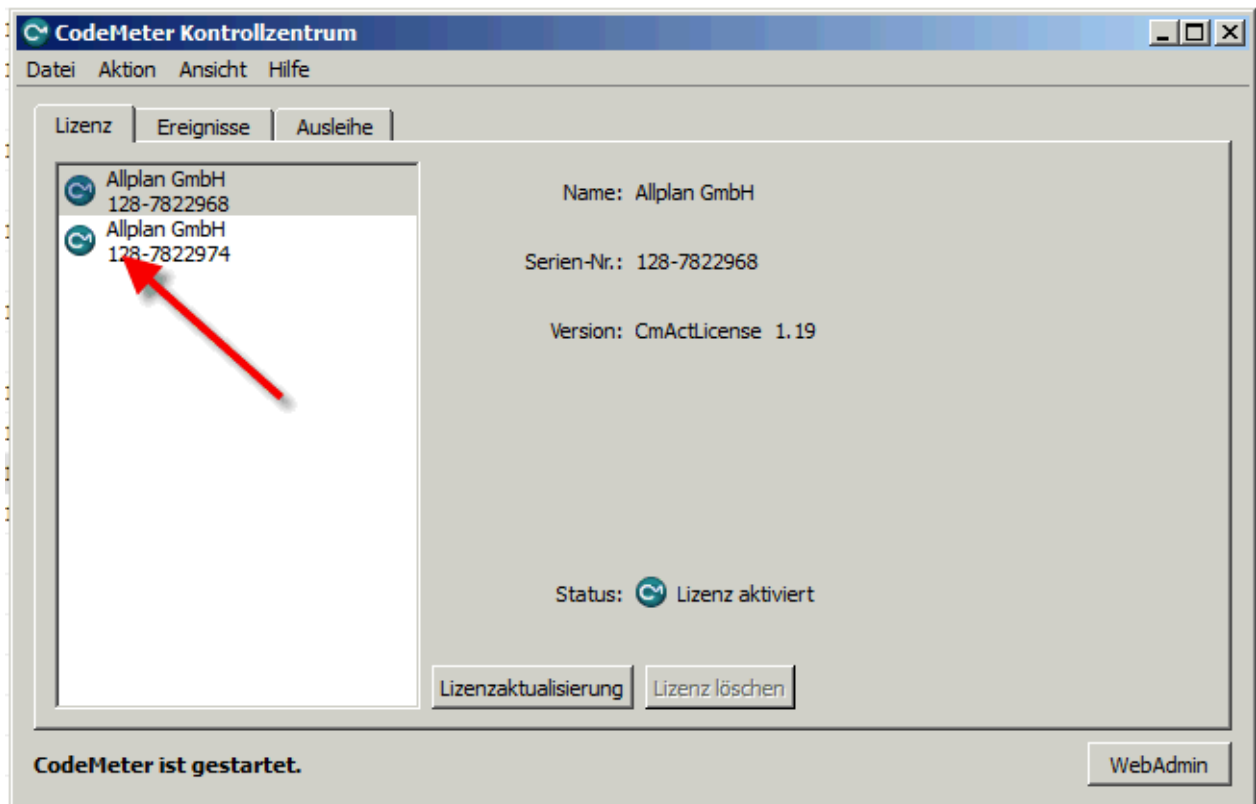

Document ID: 20150720154831

Internet: <https://connect.allplan.com/en/faqid/20150720154831.html>

Start **CodeMeter Control Center**.

To do this, you can use the Windows start menu: CodeMeter -> CodeMeter Control Center. As an alternative, open Search by clicking the Search button on the Start screen: enter Codemeter and press ENTER. A dialog box opens.

On the first tab license you will see numbers (it's called containers). Check under licenses if a container Allplan GmbH 128-XXXXXX exists. This one has to be deleted. To do this you have to use the command prompt.

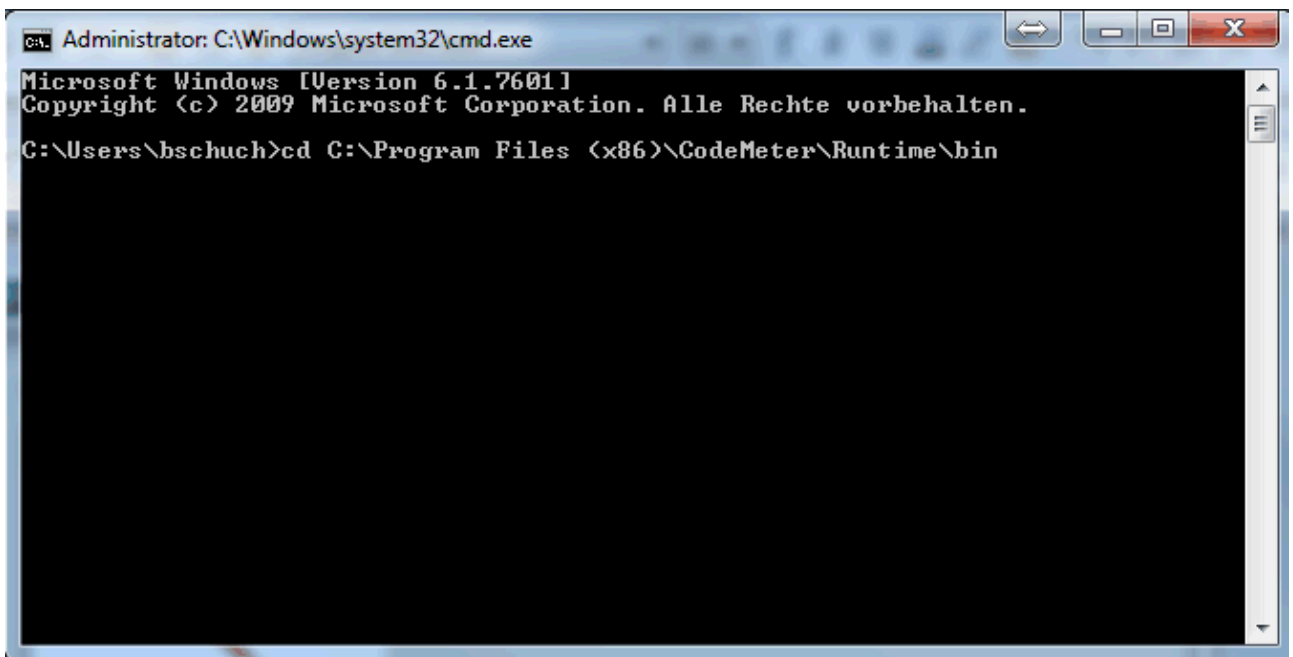

Try to delete it with the following command prompt

Open the command prompt:

Start -> type "cmd" -> ENTER.

change the path to C:\Program Files (x86)\CodeMeter\Runtime\bin
by typing **cd C:\Program Files (x86)\CodeMeter\Runtime\bin**

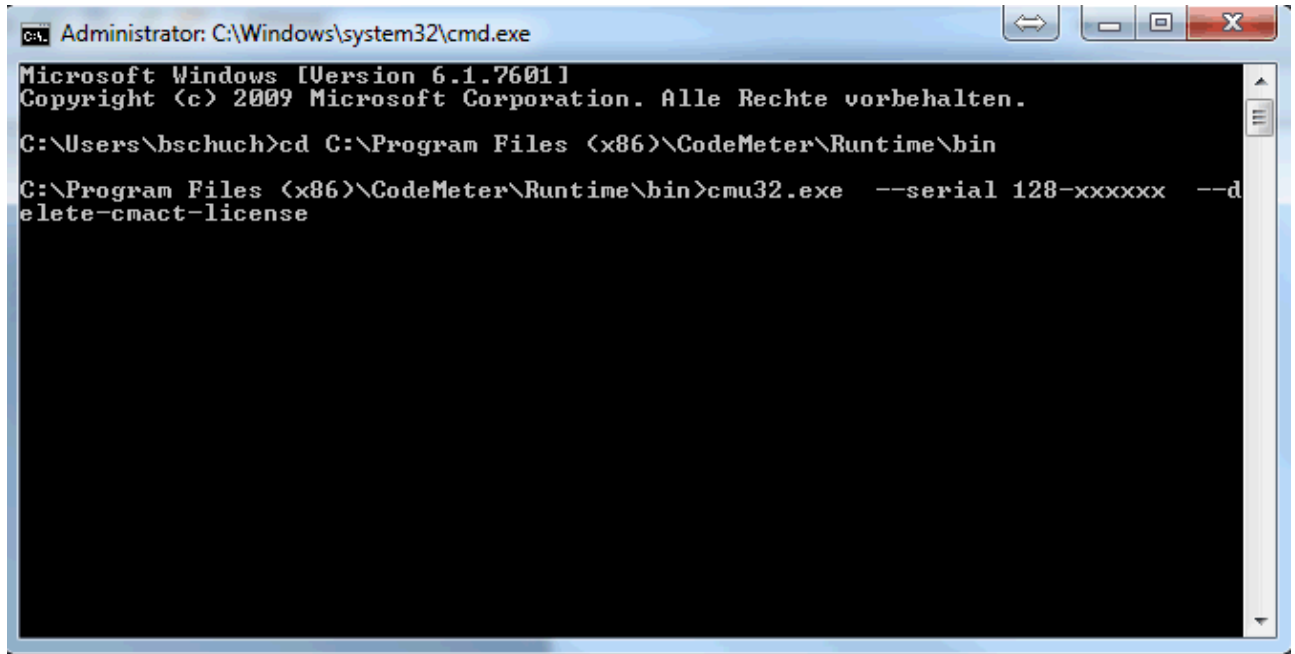

When you are in the right folder use the command

cmu32.exe --serial 128-xxxxxx --delete-cmact-license

You will have to replace the xxx after 128-xxxxx with to the number you'll see in your customers CodeMeter Control Center

So e.g. in my screenshot its 128-7822974

So I would type the command **cmu32.exe --serial 128-7822974 --delete-cmact-license**

```
Administrator: C:\Windows\system32\cmd.exe
Microsoft Windows [Version 6.1.7601]
Copyright (c) 2009 Microsoft Corporation. Alle Rechte vorbehalten.

C:\Users\bschuch>cd C:\Program Files (x86)\CodeMeter\Runtime\bin
C:\Program Files (x86)\CodeMeter\Runtime\bin>cmu32.exe --serial 128-xxxxxx --delete-cmact-license
```

The container disappears it will be create new when you open the Services application -> Utilities -> License settings and activate you license.

Try now to activate the license with the product key again.
