Question:

How can the program "Codemeter Control Center" be installed manually.

Answer:

Exit Allplan.

A current and released version of "Codemeter Control Center" can be downloaded from the following link.

<https://webdrive.allplan.com/s/4LrjrymoxESzC6p>

The program is located in the folder.
/Allgemein/Wibu/

(Click on the three dots to the right of the file size and select download)

Start the file "CodemeterRuntime.exe" bypassing the user account control. To install, activate the file with the right mouse button and select "Run as administrator".

Confirm all messages in the setup, as well as the default settings with 'Next'.

Codemeter Control Center will then be installed.

Note:

If you are using an Allplan license server, the Codemeter Control Center program is not only available on every Allplan client, but also on the server running the Allplan license server.

Install Codemeter Runtime on your license server in the same way.

Please also note the following instructions for the license server.
